

Раздел II
Размеры должностных окладов гражданского персонала воинских частей и иных организаций Министерства обороны Российской Федерации

Должностные оклады руководителей
Заводы, центры, арсеналы, базы, склады, отделы хранения и снабженно (обеспечено) войск вооружением, военной техникой, имуществом, горючим и смазочными материалами; отделы (отделения) хранения; районы электрических сетей; хлебозаводы и хлебопекарни, типографии, станции технического обслуживания автомобилей, мастерские по ремонту и изготовлению военной техники, вооружения, учебных и наглядных пособий, приборов, оборудования и другого военного имущества

Table 40: Qualification requirements (characteristics) by positions and corresponding salary ranges for various roles like warehouse managers, engineers, and technicians.

Table 41: Qualification requirements (characteristics) by positions for specialized units like technical service stations and technical maintenance.

Table 42: Qualification requirements (characteristics) by positions for military commissariats, including roles like commissary and clerical staff.

Table 43: Qualification requirements (characteristics) by positions for road exploitation units, including roles like road repair and maintenance.

Table 44: Qualification requirements (characteristics) by positions for road exploitation units, including roles like road repair and maintenance.

Table 45: Qualification requirements (characteristics) by positions for topographic, aerophotogrammetric, and geodesic units, including roles like topographic engineer and geodesist.

Table 46: Qualification requirements (characteristics) by positions for editorial and publishing units, including roles like editor and proofreader.

Table 47: Qualification requirements (characteristics) by positions for combined units, including roles like technical editor and proofreader.

Table 48: Qualification requirements (characteristics) by positions for combined units, including roles like technical editor and proofreader.

Table 49: Qualification requirements (characteristics) by positions for combined units, including roles like technical editor and proofreader.

Table 48: Qualification requirements (characteristics) by positions for residential-exploitation units (garrisons), including roles like residential manager.

Table 49: Qualification requirements (characteristics) by positions for communal facilities (equipment) of military units, including roles like electrician.

Table 50: Qualification requirements (characteristics) by positions for thermal facilities, including roles like boiler operator.

Table 51: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 52: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 53: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 54: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 55: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 56: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 57: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 58: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 59: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 60: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 61: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 62: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 63: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 64: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 65: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 66: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 67: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 68: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 69: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 70: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 71: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 72: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 73: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 74: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 75: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 76: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 77: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 78: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 79: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 80: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 81: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 82: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.

Table 83: Qualification requirements (characteristics) by positions for combined units, including roles like boiler operator and maintenance worker.
